

A 90-day supply helps you skip monthly trips to the pharmacy

Retail 90 benefit

It can be challenging to find time to go to the pharmacy every month to refill prescriptions. Our 90-day benefit options were created to help our members take the medicine they need with fewer trips to the drugstore. You can also choose to have prescriptions delivered to your door. The 90-day benefit is offered at no extra cost to you.

A 90-day supply of your medication can help you stay on track with your doctor's treatment and avoid emergency room visits, hospital stays, or tests that may be needed if you miss a dose.*

Better access to the medication you need

Retail 90 lets you refill your prescriptions for a 90-day supply of many covered prescription drugs, including drugs you take on a regular basis to treat long-term health conditions like asthma, heartburn, or diabetes. You can see which drugs are covered by your plan at [carelonrx.com](https://www.carelonrx.com).

Here is how to find a participating Retail 90 pharmacy near you:

- Log in to [carelonrx.com](https://www.carelonrx.com).
- Choose **Find a Pharmacy**.
- Enter your ZIP code or city.

You can also find a nearby pharmacy using the CarelonRx app.

Most pharmacies in our Base or Rx Choice Tiered networks also participate in Retail 90. They include leading drugstores and big-box stores such as CVS, Target, Walgreens, and Walmart.

With Retail 90, you will have more of the medication you need on hand and spend less time at the pharmacy.

It's easy and convenient to start using your 90-day prescription benefit.
